Conservation
Hotly Scored
By Humphries

WASHINGTON, June 2.—With the prophecy that future generations will brand the forest conservation policy as "the greatest crime against the people perpetrated in this generation," Representative Humphrey of Washington, in the House today charged that under the guise of conservation the public had been robbed of millions of acres of the best land in the public domain. He referred specifically to the "land grabs" wherein forest reserves had been created or the choice of forest acreage had been given corporations in exchange for acreage intended for reserve or for other conservation purposes. He asserted that the Santa Fe and Northern Pacific had been given hundreds of thousands of acres of timbered or untimbered lands worth nearly a billion dollars for land either worthless or valued at from five to forty cents an acre.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Cloudy tonight and foggy,
fair Tuesday; light west winds.

Swimmin' Holes Taboo
Till School Hours Close

WASHINGTON, June 2.—Because the opening of the District's "swimmin' hole" heretofore has been accompanied by wholesale cases of "hockey," Superintendent Hudson announced today that on school days boys of school age will not be allowed to "go swimmin'" until after 3 o'clock, the closing hours for Washington's schools.

LOS ANGELES COUNTY CHARTER
BECOMES EFFECTIVE TODAY

LOS ANGELES, June 2.—At noon today the new county charter became effective. It places all county offices under civil service but provides that all officials holding jobs for six months prior to today shall continue without examination. The county government is placed largely in the hands of three commissioners who will be appointed before July 1st. The present supervisors will finish out their terms. Hereafter the supervisors will receive \$5,000 annually.

FIRST ELECTION UNDER NEW

PORTLAND GOVERNMENT OPENED

PORTLAND, Ore., June 2.—The polls opened at 8 o'clock for the first election here under the new commission form of government. The weather is perfect and a heavy vote is expected. The mayor is to serve four years at a salary of \$6,000, and the auditor and two commissioners for four years. Two for two years are to be elected.

U. S. Floating Court
Sails for Alaska Waters

WASHINGTON, June 2.—The revenue cutter service was advised today that the cutter *Thetis*, the only floating court in the United States, sailed today from Seattle, Wash., for Alaskan waters. A special court will sit aboard the revenue cutter to clear up all cases which have accumulated since the close of navigation last fall.

Cleveland Playgrounds
Opened With Big Ceremonies

CLEVELAND, June 2.—Under the auspices of the Playgrounds Association of America, elaborate ceremonies today marked the formal opening of Cleveland's playgrounds. Thousands of little folks participated in folk dances and dances of all nations. Movies will reproduce the ceremonies in every city of size in the country.

Embryo Engineers
Off for Western Experience

CLEVELAND, Ohio, June 2.—Twenty-five students of the mining engineering department of the Case School of Applied Science, left here today for Butte, Mont., Anaconda, Mont., and points in Colorado, where they will study the practical side of their profession and engage in research work.

Nation's Marble Workers
Ask for Increased Wages

KANSAS CITY, June 2.—Resolutions asking increases in wages were to be introduced before the convention of the International Association of Marble Workers, which convened today. Representatives from every state in the Union were in attendance.

KOLB'S STORY OF
SHOOTING TAKEN
AS TRUTH OF CASE

LOS ANGELES, June 2.—Irene Noble, the fiancee of Fred Kolb, who was shot Friday while the couple was alone at the home of the girl's brother, is in a serious condition, with few chances of recovery, and cannot be questioned regarding the shooting. The police have accepted Kolb's statement that the girl threatened suicide and was shot during the struggle occurring when he attempted to wrest the gun from her.

ITALY AIDS BALKAN PEACE—
CONCEDES COAST LINE

ROME, June 2.—Italy scored a strong point for peace in the Balkans today when official announcement was made that the government concedes to Greece the coast line of the former Turkish province of Epirus between the Bay of Phthilia and the Kalamas river.

ACCUSED OF MURDER OF
WIFE AND THREE SONS

PORLAND, June 2.—George C. Schall, an army hospital steward, under indictment before the federal grand jury in San Francisco charged with murdering his wife and three sons and afterwards setting fire to the house they occupied at the Presidio, was arrested today by Deputy Federal Marshal Tally. He admitted his identity but denied any knowledge of the crime.

WESTON ON 1500-MILE WALK

NEW YORK, June 2.—Edward Weston, the septuagenarian pedestrian, started on a 1500-mile walk to Minneapolis today. He expects to arrive in Minneapolis in sixty days.

GEAR SHIFTING AUTO HITS RAIL DEVICE LOOKS DRIVER IS GOOD KILLED

Percy F. Rice's Invention Is Attracting Much Attention

EASIEST THING YET DISCOVERED

Direct Action Accomplishes the Result—1000-Mile Test Given

Percy F. Rice's invention for shifting gears of an automobile has been given a thorough test, and has made good. In 1000 miles running on varying grades, it has worked perfectly. Auto manufacturers are looking the appliance over, and there is every reason to believe that Rice's invention will come into general use. The Los Angeles Times yesterday said the following:

Percy F. Rice, a young inventor, of Tustin, is responsible for an automobile gear-shifting device which is attracting the attention of the leading automobile manufacturers of the country, among the more prominent of which is one of the largest factories in Detroit. Young Rice has a remarkable number of inventions to his credit, ranging all the way from an automatic job press feeder to a traction cultivator for orange groves.

The new gear-shifting apparatus simplifies the driving of a motor car. The selector is a little inconspicuous, which works on a quadrant placed on the steering wheel, and may be grasped between the thumb and forefinger. The driver presses his clutch out and then slips his selector to whatever speed he desires. The body need never bend from its upright position in the driver's seat, the eyes never alter their range of vision, nor the hands ever leave the steering wheel. The present gear-shifting lever is done away with entirely. This refinement of arrangement will be appreciated especially by women who drive cars.

It is claimed that the Rice invention is different from any other attempted for the same purpose, in that it is absolutely mechanical in action. It is not automatic in any way; does not depend on electricity, compressed air, fluid or other uncertain mediums to accomplish its end. It works by direct action.

The device is inexpensive to install. Rice has run something over 1000 miles with the car on which his invention is installed, and from which the old system of gear-shifting has been removed, and has always achieved perfect results under the severest tests.

Rice's patent attorneys have received word from Washington that their client's invention does not infringe upon any that has been heretofore recorded in the patent office.

WOOD COMPANY'S BOOKS SHOW PAYMENTS

Wool Trust Officials Paid Out Big Sums For Detective Work In Lawrence Strike

BOSTON, June 2.—The books, receipts and vouchers of the American Woolen Co. were presented today as evidence when the trial of William M. Wood, the millionaire head of the woolen trust, Frederick Atteaux, manufacturer, and Dennis Collins, dog fancier, charged with planting dynamite to discredit the Lawrence textile strikers, was resumed. These showed the company had paid the Sherman Detective Agency of Boston \$185 to cover work done in Salem in connection with the trial there of John J. Green.

James Bailey, Jr., one of the company's managers, admitted he had approved a bill of \$1000 for detective hire on behalf of the company. He admitted that he had purchased four thousand copies of Lawrence papers containing accounts of the discovery of dynamite, with an interview with Wood cautioning the strikers not to attempt violence. These were distributed widely. A long argument followed over the admissibility of the papers as evidence. The court finally admitted them.

Santa Ana Painless Dentists, 102½ East Fourth St. Main 253.

EBELL SOCIETY CONSIDERS RAISING DUES FROM \$2 TO \$4 TO SUPPORT DAY NURSERY

Arguments on Both Sides Indicate Seriousness With Which the Matter Is To Be Voted On on June 28.

On June 28 the Ebells Society of the Santa Ana Valley is going to vote upon the proposal to raise the annual dues of that society from \$2 a year to \$4. The question involves the support of the Day Nursery, established two years ago and maintained under the supervision of the Ebells Society. This is a matter in which the society is much interested as it involves, in short, the question of whether or not the society will do systematic charitable work in maintaining the Day Nursery, and whether or not the method of supporting the Day Nursery shall be changed from its present

peculiar building a club-house there is no possibility that the club can long continue with dues so low as \$2 a year. The additional cost per member will be 16 2/3 cents per month.

The present system has been far from satisfactory, so far as having a dependable fund is concerned, though thoroughly satisfactory so far as the good nursery has done. The subscriptions have not met the expenses. Last summer the society had over \$200 in the fund, of which \$150 had been secured through the baseball game between the teachers and ministers. This summer there is but \$18 in the treasury to start with. The unusual sources, unfortunately, such as put \$300 in the fund to start the summer with last year, have not been visible.

The plan of supporting the institution by undertaking a series of entertainments was suggested. The more reliable plan of raising the dues was the one that met with the approval of a majority of those who were present Saturday. That plan is the one that is practically submitted to the members, and which will be voted on June 28.

Those who favor the raise of dues state that the experience of the society has been that raising dues does not diminish numbers or interest. In 1912 dues were raised from \$1 to \$2. In 1913 the entrance fee was raised from \$1 to \$5. Since 1911 the membership has increased about seventy.

Those who have mothered the Day Nursery have no expectation that it will fall by the wayside. Its value has been proven and even should the Ebells not go ahead with the work there is little question but what the church would undertake to keep it going. That, however, does not seem to be the point at issue. It is argued that the society ought to do some charitable work, not confining itself to cultural work entirely.

Here are some of the arguments that have been advanced against the proposal to raise the dues:

It has been stated that the society is organized of women of the Santa Ana valley. The Day Nursery cares for children from Santa Ana only. For the reason that it is impossible for women residing in Tustin and Orange to get their children to and from the place, which is located on East Third street, between Spurgeon and French streets. The women of Tustin and Orange ought not to be called on to help support a Santa Ana institution.

It has been stated that the Ebells Society is composed of women of all walks of life, and while but few will miss the additional \$2 a year others might feel that they cannot afford it.

Others argue that the institution should be supported by free-will offering, by allowing those who desire to give to give in proportion as they feel.

Those who oppose the raise in dues are of the opinion that the vote in March did not commit the society to any change in the system of deriving support for the Day Nursery.

There are two sides to the question. Those who favor the proposal argue that the Ebells Society ought to do some systematic charitable work and that practically every woman's club of the state of the size of the Ebells Society does some such work. It was pointed out that the Ebells dues of \$2 a year will not furnish sufficient money for meeting the usual expenses of the society and money for running the Day Nursery, also that with the pro-

FRANK WILD TELLS OF WINTER NEAR THE SOUTH POLE

LONDON, June 2.—Frank Wild and his seven companions, who formed the second base of Dr. Mawson's Antarctic expedition, spent the winter in a tunnel dug in a huge glacier, according to the first information concerning the expedition which reached here today.

The Wild party discovered a new large tract of land that is known to have 350 miles of coast line and is believed to extend to the Pole itself.

During one stage of their trip three members of this party were imprisoned in a six-foot tent for seventeen days during a terrific blizzard. When they were finally able to crawl out, they were much weakened, but quickly recovered from the experience.

SMUGGLING PLOTS IN PHILADELPHIA ARE TO BE PROBED

PHILADELPHIA, June 2.—A sensational series of smuggling plots by which sixteen Philadelphia bankers and business men have swindled the government out of more than a million dollars has been disclosed by the investigation now being made by Harry N. Arnold, special assistant to Attorney General McReynolds.

The investigation was begun by Mr. Arnold following the discovery by Appraiser Reper that several trunks containing dutiable goods belonging to Edward T. Statesbury, senior member of the firm of J. P. Morgan & Company, had been passed through this port without being appraised.

Dr. Pearl B. Magill, osteopath, 102½ East Fourth St. Main 253.

URGES PROBE OF ST. LOUIS & S. F. R. R. IN RECEIVER'S HANDS

WASHINGTON, June 2.—Representative Hinebaugh of Illinois today introduced a resolution proposing that the Interstate Commerce Commission investigate the receivership proceedings of the St. Louis and San Francisco railroad. He charged that the road was placed under receivership because it was unable to meet the two and a half million dollars in notes due on June 1. He asserted that there have been many charges of mismanagement and watering of stock. He urged that an investigation be undertaken.

MRS. ROSENBERG'S BAIL IS REDUCED

LOS ANGELES, June 2.—The bail of Mrs. Josie Rosenberg, the proprietor of the Jonquil Apartments, arrested recently in connection with the white slave probe, was reduced to \$10,000, covering two charges, contributing to the dependency of two minor girls. Her trial will be on June 16th.

CAUGHT GIRL AND HAD HIS BACK HURT

ORANGE, June 2.—Yesterday afternoon the 10-year-old daughter of C. M. Donley lost her footing while in a mulberry tree, and was hanging by her hands when J. F. Buer ran to her assistance. She was about twelve feet from the ground. Buer told her to drop and he would catch her. She dropped, Buer was knocked down. The girl escaped unharmed, but Buer had his back badly wrench.

Lightning destroyed many farm buildings and caused the burning of miles of timber land on the hillsides.

50 CENTS PER MONTH

LOBBY PROBE BEGUN BY SENATE

Sub-Committee to Investigate
President's Charges as to
Insidious Lobby

LONG LIST OF QUESTIONS FOR SOLONS TO ANSWER

Wilson Will Guide Inquiry and
Give Information From
White House Files

WASHINGTON, June 2.—A difficult hunt for the "insidious lobby," which President Wilson says is operating against the Underwood tariff bill was started today by a Senate subcommittee. The inquiries began by questioning senators to learn what steps they had taken, if any, to influence tariff legislation, and whether any of the senators were financially interested in the measure.

The Judiciary committee room was packed when the investigation started. The committee will meet morning, afternoon and evening until the work is completed. A long list of questions has been prepared and the senators will be examined in alphabetical order. The purpose is to read into the record the names of hundreds of constituents who have written and wired protests, expressing fear of business ruin and financial chaos.

Ashurst of Arizona was the first senator called. He said he was unable to name all the persons approaching him regarding the tariff, and denied that he is financially interested in the tariff. Senator Bacon piously refused to sit on the witness platform and gave ironic replies to all questions. Senator Borah next denied that he was financially interested and named several men who had conferred with him regarding tariff schedules, adding that the conferences had been "entirely proper." Ashurst and Borah each mentioned J. S. McMurray as a man trying to influence legislation.

WILSON WILL GUIDE INQUIRY AND FURNISH INFORMATION

WASHINGTON, June 2.—At his regular weekly conference with newspaper men, President Wilson declared that he expects to guide the inquiry into the workings of the lobbies, begun today by a subcommittee of the Senate judiciary committee. He said he had summoned Chairman Overman to the White House to make suggestions regarding the procedure and the scope of the investigation. He refused to state what suggestions he had made. He says that he does not expect to testify personally, as he has not been called as a witness, but has offered to furnish considerable information from the White House files.

The President said the currency reform bill will not go to Congress this week, because its completion has been delayed. He admitted that he had had no further note from Japan on the California anti-alien bill.

CHARGE WITHDREW NOTE FROM BANK

CINCINNATI, June 2.—The trial of the ex-boss, George B. Cox, and four officials of the Cincinnati Trust Company on a charge of removing a \$350,000 note from the bank's assets, began today. Cox and his associates gave the note at the order of the state bank examiner to make up a shrinkage in the bank's capital. Later the trust company merged with another bank, Cox and associates withdrawing the note.

STORM DOES HAVOC DOWN IN KENTUCKY

LEXINGTON, Ky., June 2.—Several persons were killed and thousands of dollars in damage done to live stock and farm buildings by a terrific wind, rain and hail storm which swept over Central Kentucky yesterday afternoon.

Tobacco growers will probably suffer the greatest loss as the plants set out last week were entirely destroyed. Grain was beaten down and ruined and hundreds of cattle were killed.

It is reported here that an entire family was killed on a farm near Lexington when the wind tore the roof from the house and the building collapsed, burying the family under the debris.

Lightning destroyed many farm buildings and caused the burning of miles of timber land on the hillsides.

ORANGE WINNER OF FORENSIC CONTEST

Took Firsts in Story Telling and
Oratory—Santa Ana Won
2 Thirds, 1 Second

The tenth annual county forensic contest held Saturday in the auditorium of the new polytechnic high school at Fullerton was well attended and enjoyed by large numbers from all parts of the county. The events roved to the county, the events roved to the very interesting and closely contested. It was a well-arranged between very good speakers and excellent speakers, with the decision in every case in favor of the best. Santa Ana high school had built strong hopes upon its representatives who did not disappoint their friends in the quality of their work, but who were defeated by what the judges considered slightly greater ability. The local school was fortunate in winning one second and two third places. Cecil Fross, with a declamation, won third place in that event; Margaret Roy, in the essay contest, took third place, and Paul Schooley was given second place among the orators. Norma Wingood was not awarded a place in the story contest. The efforts of all of these were of the highest order and were worthy of great praise.

The morning session opened at 10 o'clock with Principal Brunton of the Fullerton high school presiding, in place of Prof. J. B. Nichols, who acted as substitute judge for the morning in the absence of Prof. J. B. Lillard of the Gardenia high school. The other judges were Principal David Burcham of the Long Beach high school and J. D. Perry of the Los Angeles high school. The program for the forenoon sessions, the first three contestants in each event being the winners of first, second and third places, respectively:

Music—Orchestra, Huntington Beach Union High School

Declamations—"Sally Ann's Experience," Grace Willard, Fullerton; "The Death Dish," Marion Moody, Huntington Beach; "Helen Thorne," Cecil Fross, Santa Ana; "In the Tolls of the Enemy," Eunice Carter, Orange; "The Hazing of Zalant," John Bailey, Anaheim.

Music—Huntington Beach Orchestra

Stories—"A Little Knight of the Twentieth Century," Ruth Collins, Orange; "The Coat of Honor," Carrie Waleius, Fullerton; "Getting Around Dad," Calle Callaway, Anaheim; "A Piece of Old China," Norma Wingood, Santa Ana; "Peter Perkins, Guardian," Jette Aiken, Huntington Beach.

Music—Orchestra, Fullerton Union High School.

The afternoon session opened at 2 o'clock with Principal Nichols of the

Compton high school presiding. The afternoon's schedule, with the three place winners in the Junior essays and Senior orations, listed the same as above, was as follows:

Music—Orchestra, Orange Union High School.

Essays—"A Western Canadian Winter From Experience," Emily Carey, Orange; "Recreation Centers," Ellen Sharratt, Huntington Beach; "Jane Addams," Margaret Roy, Santa Ana; "The Telephone," Charlotte Valkers, Fullerton; "Power of Enthusiasm," Lila Abbott, Anaheim.

Music—Violin trio, Anaheim; vocal sextette, Anaheim.

Orations—"A Plea for Justice," Walter Speth, Anaheim; "The Spirit of California," Paul Schooley, Santa Ana; "The Pioneer Spirit," Paul Downing, Fullerton; "A Golden Opportunity," W. H. Knott, Orange; "Adjustment," Nels M. Johnson, Compton; "The Drama of Life," Huntington Beach.

Declamations—"A Piece of Old China," Marion Moody, Huntington Beach; "Helen Thorne," Cecil Fross, Santa Ana; "In the Tolls of the Enemy," Eunice Carter, Orange; "The Hazing of Zalant," John Bailey, Anaheim.

Awarding of Medals.

Prof. Nichols presented gold medals for first place to Grace Wilhite, winner of the declamation contest; Ruth Collins for the best story; Emily Carey for the prize essay, and Walter Speth, the best orator. When the points of the contest were added up, it was found that Orange, by winning the most points, was winner of the day's contest.

The donors of the gold medals

were Col. S. H. Finley of Santa Ana, C. C. Chapman of Placentia, William Starbuck of Fullerton, and J. W. Newell of Placentia.

FUNERAL OF MRS. HANKEY ON SATURDAY, MAY 31

On Thursday last, May 29, the sad news was received here from Long Beach that Mrs. Minnie P. Hankey, wife of J. A. Hankey, had passed away at Long Beach, where she had been for some weeks under the medical care of Dr. Walter P. Hill. The news came as a real shock to the friends of Mrs. Hankey, many of whom had not even known that she was ill, so beautifully patient and uncomplaining had she always been.

Funeral services for this woman of gentle and lovely character, who was a devoted wife and mother and a faithful friend, was held at Mills & Wimbiger's chapel in this city at 10:30 a.m., Saturday, May 31. Rev. J. H. Cooper, a former pastor of the Congregational church here, and a close friend of the Hankey family, conducted the impressive service. He dwelt on the Christianity and gentleness of Mrs. Hankey, who had lived in Orange county since she was six years old, coming here with her parents, who settled on a ranch of which the Maas place is a part. Those who listened to Mr. Cooper fully appreciated the worth of the deceased, made familiar to them through long acquaintance. Many lovely flowers were significant of the esteem in which she was held. Two sweet, familiar songs, "No Night There," and "Face to Face," were given by Mrs. Theo. Wimbiger, with Mrs. A. J. Padghan at the organ. Those who carried the casket were W. S. Decker, M. M. Crookshank, Frank Logan, Earl Tingley, W. B. Pedersen, J. W. Dowell. Interment was made in the Santa Ana cemetery.

Mr. Hankey was here from Bakerfield, his son, Howard, was down from Pomona College, and these, with Carl, the youngest son, and little Helen, her mother's inseparable companion, constituted the family group.

Minnie P. Clark, born in Iowa, became the wife of J. A. Hankey 23 years ago, the marriage taking place in Redlands on May 15. Shortly after the marriage Mr. and Mrs. Hankey united with the Congregational church here and have since remained in that fold, consistent and faithful members. Those in the church with whom Mrs. Hankey was so long associated will mourn her death. All sympathize deeply with the bereaved husband and family, but those who know them best realize that a hope of happy reunion in that land where death enters not will sustain them in their bereavement.

PEARY WILL BE HONORED IN PARIS

French Geographical Society Will Receive In Response to Popular Clamor

PARIS, June 2.—Admiral Robert Peary, the Arctic explorer, will arrive here this week in response to an invitation addressed to him by the French Geographical Society.

A great reception awaits him. He will be received by the Society in solemn seance at the Sorbonne on June 6 will deliver a public address in the enormous amphitheater of the famous institution.

Many believe the French Society would have ignored the presence of Peary in France had there not been something of a popular clamor for his official recognition. He is said to have strong opponents in the society, not that they do not believe that he reached the North Pole, but are piqued because he failed to submit his proofs to the French society at the time he honored the British geographers.

Dr. Jean Charcot, the Antarctic explorer, is one of Peary's most ardent supporters and he has several times expressed astonishment at the society's failure to take some action honoring Peary. The fact that he is now to be received and rated by the society is regarded as a sort of victory for Peary.

When Peary landed at Marseilles some weeks ago the French Geographical Society took no part in his welcome to French soil, though the Society is one of the oldest in France and one of the oldest in the world. The Marseilles Society rated the American and apparently his reception in France was to begin and end there.

Paris newspapers, however, began a campaign in Peary's favor, it developing that a certain very small fraction of the French Geographical Society, said to be headed by one of the officers, resented Peary's action in submitting his proofs to the British Society and not to the French Society. When officials of the society were asked if Peary was to be invited to Paris, the reply was:

"Peary has not asked to be received."

This statement came as something of a bombshell. Peary, then, would have to ask that he be invited, people exclaimed! Then the French Geographical Society might as well shut up shop and go home. If that was all they were waiting for, certain of the newspapers intimated, Peary not being that kind of an explorer.

A new society formed for the purpose of bringing well known explorers to Paris to lecture, fearing Peary was to be utterly ignored by the French Geographical Society, invited him to come here and deliver an address. But in the meantime the newspaper campaign had borne fruit. After discussing the question for some little time, it was unanimously decided by the members of the Geographical Society to invite the American to Paris.

Mr. Hankey was here from Bakerfield, his son, Howard, was down from Pomona College, and these, with Carl, the youngest son, and little Helen, her mother's inseparable companion, constituted the family group.

Minnie P. Clark, born in Iowa, became the wife of J. A. Hankey 23 years ago, the marriage taking place in Redlands on May 15. HER INJURIES PROVED FATAL

Mrs. P. M. Haskins, Who Was Hurt in Long Beach Disaster, Died Last Night

She Lived Here For About a Year; Two of Her Nieces Live on Grand Avenue

Mrs. P. M. Haskins, for a year a resident of Santa Ana, died last night at the Seaside Hospital, Long Beach, as the result of injuries received in the Long Beach disaster on May 24.

Mrs. Haskins lived for a year at the home of Miss Squires, 707 Bush street, and was quite well known to many members of the First Methodist church here. Last January she went to Pasadena. She was at Long Beach attending the British Empire Day celebration, and was one of those who fell into the death pit, after a fall from a bridge. She was broken, and she suffered greatly from shock.

It was thought she was getting along well, but yesterday there was a turn that ended in her death last night.

Mrs. Haskins leaves one daughter, who lives in New Orleans. In Santa Ana she leaves two nieces, Mrs. Amos Hurrell and Miss Elsie Haskins, who live on Grand avenue. Miss Haskins was at Long Beach Saturday afternoon visiting her aunt. Mrs. Haskins was about 77 years old.

TWO JURORS ARE ILL; TRIAL IS POSTPONED

ORANGE, June 2.—Owing to the illness of two jurors, J. F. Grier and W. C. Pixley, the trial of Mrs. W. H. Clayton was today postponed until next Thursday. Mrs. Clayton is charged with violating a city ordinance in cutting a pavement without permission.

SAN FRANCISCO IS NEXT TO NEW YORK IN HOTEL CAPACITY

SAN FRANCISCO, June 2.—San Francisco stands next to New York in ability to feed and care for the stranger, according to statistics compiled here today by the Chamber of Commerce. A census shows that while the city only had 1,237 hotels and lodgings houses a year ago, today it boasts of 2,023, which is an increase of 64 per cent. The same bulletin shows the city has 767 cafes, exclusive of hotel dining rooms.

OWN A FARM IN TULARE COUNTY

Pay in cash (\$700 to \$1000 on 29 acres)—balance in 1919. Diversified crops are the farmer's safeguard. Yields of \$100 to \$300 an acre are realized from oranges, olives, peaches, figs, seedless grapes, melons, berries, Turkish tobacco, alfalfa, etc., etc.

The Oroso district is safe for oranges. The navel crop is shipped by December 15th. Our illustrated folder with map may mean much to you. Send for it.

NEARLY \$100 WAS STOLEN

Money Taken From Its Hiding Place at the Blakeman and Tiller Poolroom

Someone May Have Seen the Money Put Away—Till Was Not Broken Into

About \$100 was stolen Saturday night from Blakeman & Tiller's poolroom at 211 West Fourth street. At what hour it was stolen is not known, and who got it is also a mere matter of conjecture.

This poolroom was opened recently. It seems that on Saturday nights poolrooms are often called on to cash checks presented by patrons who come in from the country. For that reason Blakeman & Tiller had a little extra coin on hand last Saturday night. This money was not kept in the till, but was hidden away in a cigar-box or jar. It is possible that someone saw the money put away, and that a favorable opportunity was awaited for purloining it. The till of the place was not broken into.

CITRUS GROWERS CLEAR \$46,000

Part Payment on April Pools of Claremont Association a Record Dividend

POMONA, June 2.—The Claremont Citrus Association has just paid one of the largest dividends in its history. This amounted to \$46,000 as part payment on the April pools and is clear to the growers after all expenses of picking, packing and shipping are deducted.

The record returns are due to the unprecedented high prices received for the fruit. The tally sheets show that extra choice fruit from this locality brought over \$4 per hundred pounds while the average price was \$2.50 per hundred pounds.

Ira Scofield, president of the Claremont Citrus Association, states that May promises to be even better than April. This month will practically wind up the shipments from this house. These shipments have been in excess of expectations earlier in the year.

There are fourteen carloads of fruit at the Park avenue packing house of the Pomona Fruit Growers' Exchange awaiting shipment and there are about sixty-five cars yet to come in.

Three hundred and six cars have been shipped this season by this one packing house. The total shipment for the season will be about four hundred cars.

PEOPLE OF U. S. USE LESS COFFEE THAN IN YEARS OF YORE

WASHINGTON, June 2.—People in the United States aren't nearly such coffee drinkers today as they were years ago, according to statistics made public today by Secretary of Commerce Redfield. In 1909, the average consumption per capita was over 11 pounds, and the average import price was seven and a half cents a pound. In 1911, when the average import price had advanced to 16.3 per pound, the average consumption per capita was 9.3 pounds, and in 1912, with the average import price 13.3 cents, the average consumption was only 8.9 pounds.

Secretary Redfield estimates that according to the totals of imports so far, the fiscal year ending June 30, will show a larger value than in any preceding year, though the quantity will fall considerably below other years.

Society Changes

A new junior society is being organized at Villa Park. The Orange Christian young people has disbanded and in its place an intermediate society has been formed. The Santa Ana societies held excellent union prayer meetings in the tent, preceding Dr. Brougher's Sunday evening sermons.

Efficiency

According to the last state report, Orange county leads all other counties of the state in the actual number of societies enrolled in the efficiency campaign, and stands third in point of highest average rating. Societies worthy of mention are Anaheim Presbyterian Juniors, 79 per cent; El Modena Friends, 77 per cent; El Modena Friends Intermediate, 70 per cent; Santa Ana Presbyterian Y. P. 63 per cent; Tustin Presbyterian Y. P. 64 per cent.

STANFORD WINS FROM KEIO

TOKIO, June 2.—By daring base running and taking advantage of their opponents' errors the Stanford University baseball club Saturday beat the Keio University in a score of one to nothing. The Japanese pitcher allowed the Americans but one hit.

The score:

Stanford 1 1 2
Keio 0 3 2

CITY SLUMS

Mrs. Woodrow Wilson is spending considerable time, so the dispatches say, in studying slum conditions in Washington. May she be able to bring about some amelioration in these nightmare realms of dirt and disorder.

Says the comfortable man: "Why will people live amid these sticky smells, when Kansas is shouting for wheat harvesters? If in order to keep within reach of the moving picture show, they persist in living in this conglomerate of dirt and decay, it is their affair, not ours."

It is the affair of the community, though, just as much as to nail a red card on the house infected with small pox. Among these high buildings and narrow courts, which imprison the air as in a cellar, where the atmosphere becomes a heavy and adhesive steam, there is brewed a hell-broth of tuberculosis and typhoid. Housekeepers in fairer neighborhoods become worried about the smell of one garbage pail, when the contamination of a city slum is carried by human contact to the remotest village.

In spite of all that has been done by sanitary laws and philanthropy, students of slum conditions say little improvement is shown since America first began to study how "the other half" lives. Meanwhile in Germany, which Americans regard as almost an inferior civilization, the government builds sanitary tenements wholesale, kept clean by determined inspection. Any condition that impairs physical health is intolerable to the people of Germany.

City slums could be kept clean and sweet, just as the deadly Panama itch was turned into a health resort. It needs a strong authority and an honest city government. The people who make the best machines and the best railroads in the world, ought to be ashamed of the childish stupidity with which the American plague spots have been dealt with.

WANTED: THE RIGHT WORD

Do you "quench" your campfire? Or extinguish it? Or merely put it out?

In getting out annual forest fire campaign literature, the U. S. Forest Service has discovered that there is no word which perfectly covers just what must be done to a campfire before the campers leave the spot where their fire has been. "Put out" is feeble, and in some localities means "to start." "Extinguish" is precise, but unwieldy and somewhat too stilted for ordinary use. And some objection can be raised to almost any substitute word.

Recently, a letter was received by Secretary Metzgar of the local chamber of commerce from a man in Christiania, Norway, inquiring about the agricultural and horticultural possibilities and advantages of Orange county. How the good gospel spreads!

Anybody who needs convincing that trading at home is more profitable than purchasing elsewhere, should inspect the stocks in the home stores and get their prices.

One method by which the citizens of Santa Ana effectively attack the high cost of living is by maintaining splendid vegetable gardens. The especially good soil, an abundance of water and the superb California climate enable one to reap a continual succession of crops the year around.

The work of the local chamber of commerce is making itself felt right along for the good of Santa Ana and Orange county.

What was the Republican party fifteen months ago is now split into three elements, the now-Progressives-ex-Republicans, the still-Republican-near-Progressives and the always-Republican-always-standpatters. Fifteen months ago the now-Progressives-ex-Republicans and the still-Republican-near-Progressives were co-operating for the adoption of certain distinct reforms in the party organization and law. They had been defeated by the standpatters in several efforts to secure the adoption of these reforms but were continuing to fight. This effort on the part of the now-Progressives-ex-Republicans ceased with the campaign which culminated in the notorious Republican National Convention of 1912. After that convention this element of the Republicans left the old party, organized the Progressive party, adopted in the Progressive party all the reforms for which they had been struggling in the Republican

party and went considerably farther by the application of the principles of the initiative, referendum and recall to the party law. So that now every reform in the party organization for which the Progressive element of Republicans had contended has been adopted by the Progressive party and is part of its law. In the contest which followed, the now-Progressives-ex-Republicans attracted to their party at least one million Progressive Democrats.

For reasons of their own the still-Republicans-near-Progressives chose to remain with the Republican party in which they are endeavoring to maintain the old struggle for the adoption of these party reforms and now these still-Republicans-near-Progressives come to the now-Progressives-ex-Republicans with the proposition that they shall abandon the reforms accomplished by the new party and return to the old organization and take up again the old fight which has always been unsuccessful.

This is the point of the appeal put out by the recent Cummins-Hadley-Borah Chicago conference.

The best that the gentlemen can offer to Progressives in the way of reward for acceptance of their invitation is the re-establishment of the old condition of struggle between the Progressives and the standpatters with absolutely no assurance that the result of the renewed strife would be in the least different from what it always was before.

Editorial Edibles

In Judge Flannigan's charge to the jury in the Roosevelt libel case he stated: "Certainly he has convinced the court, not only that he never was drunk, but that he is now and always has been a temperate and abstemious man." In that statement was embodied the point for which Col. Roosevelt instituted the libel suit, the refutation of the base and baseless charge of insobriety.

A Gallion, Ohio, farmer possesses a rare among the fleece of which is growing a flourishing crop of oats. This method of farming should prove advantageous. In that if the rain won't come to the crop, he can drive the crop into the creek or pond, and into the barn at harvest time.

The report of the county committee of the Orange County Young Men's Christian Association for the last official year, was indeed a creditable one. It contained a list of accomplishments in the work for the welfare of the boys and young men of this county which gives encouragement to those interested in the good work.

A considerable shortage of the wheat crop is threatened in parts of Kansas as a result of a protracted dry spell. No conditions like that here in Southern California, where almost ideal crop producing weather prevails all the year round.

Recently, a letter was received by Secretary Metzgar of the local chamber of commerce from a man in Christiania, Norway, inquiring about the agricultural and horticultural possibilities and advantages of Orange county. How the good gospel spreads!

Anybody who needs convincing that trading at home is more profitable than purchasing elsewhere, should inspect the stocks in the home stores and get their prices.

After a few more fires, more or less disastrous, those responsible will learn that the careless handling of gasoline or other inflammable material is not a profitable practice.

When the new \$200,000 polytechnic high school is completed, about September first, the educational facilities of Santa Ana will be of the best obtainable. This fact should not be overlooked by those homeschooled looking for a desirable place in which to rear a family.

The Orange County beach resorts, from Bay City to Arch Beach, are preparing to enter upon an era of prosperity and activity such as has never before been experienced. These resorts are becoming more and more popular as the summers pass by, and with the completion of the county good roads system the influx of people from the interior cities will be greatly increased.

BIBLE READING IN SCHOOLS SHOULD HELP VOTERS-TO-BE

(FROM THE SAN FRANCISCO MULLETIN)

Governor Tener of Pennsylvania has signed a law providing for bible reading in the public schools. Scarcely an educator in the nation has failed to give some thought to this vital need, the situation being simply that we have denied to our children the greatest book of all time because of our differences in the interpretation of a certain few portions of that book.

Now that the Pennsylvania law has been framed and signed it seems strange that the plan was not thought of before. The measure provides that all teachers in the public schools of the state shall read aloud each day exactly ten verses of Scripture. By this limit, and by the proviso that the verses shall be read absolutely without comment, the old difficulty is avoided.

How the law will work out remains to be seen. But at least one interesting development can be foreseen, namely, that in the verses chosen by different teachers there will be the widest variety.

By going into any school during the minutes of bible reading one should gain a fair estimate of the character some truths that work wherever implanted of the teacher. Many will doubtless planted.

Should many of the teachers of Pennsylvania adopt this method in their Bible reading the next generation may well see a new and broader spirit entering into Pennsylvania's legislation, into its prison administration, its business world, its homes and its institutional life. There are

also last fall when the musical productions were put on for a couple of weeks.

The secret of the success of these old compositions and their seeming popularity over anything else that has been produced of late either in America or Europe, seems to be in their short, snappy lines, The Merry Widow, the Waltz Dream, The Chocolate Soldier and such pieces have had charming music, perhaps as good as the Sullivan brand, but the words do not have the virtue of the Gilbert lines.

"He's telling a terrible story."

"But that would diminish his glory," and

"It's really elegant diction." "To call it an innocent fiction"

as applied to the Major General in Pirates of Penzance, who really is "A model of a modern major-general" are samples of some of the catchy lines in the old operas and in Pinocchio, Sir Robert Porter's

"Sit close to your desk and never go to sea."

"And you will be the ruler of the Queen's navy."

Is so everlast that it is today applicable to the regime of our own Naval Secretary Daniels.

TORPEDO Fleet Speeds North TO UNDERGO NEEDED REPAIRS

SAN DIEGO, June 2.—Five destroyers, three submarines and the tender Alert of the submarines are speeding northward from San Diego to San Francisco today. The destroyers are the Paul Jones and Stewart both in need of repairs as the result of recent accidents; Preble, Whipple and Truxtun. The submarines are the F-1, F-2 and F-3, recently placed in commission and among the largest in the navy. The destroyers are to return the latter part of June for battle practice.

THE DAILY NEWSPAPER
A POSSIBLE TEXT BOOK

Edward Hyatt, superintendent of the lines of what is set down. Fine practice it is, to read carefully and try to see what is between the lines of what we read.

The laws of California have for many years required the teachers in her public schools to teach the effects of alcohol and narcotics upon the human system to all the young people in their charge.

This is found to be a delicate, difficult and almost superhuman undertaking. Instructors often feel that they are expected to make bricks without straw in the lack of special text-books, outside assistance, helpful neighborhood sentiment.

Doings In Social and Club Circles

FAREWELL TO THE STAFFS
Wisconsin Church Honors For
Pastor and Family Who Are
to Live In Santa Ana

The Daily Reporter of Grand Rapids, Wisconsin, under date of May 24, gives the following concerning the farewell given by the Congregational Church of that place to Rev. and Mrs. Fred Staff, who will soon be residents of Santa Ana. Mr. Staff having accepted a call as pastor for the First Congregational Church of this place. The Reporter says:

"The Congregational Church parlors were appropriately decorated in honor of the farewell reception given there to Mr. and Mrs. Fred Staff Friday evening. About two hundred members of the church and congregation were present to pay their respects and extend greetings. The fellowship and brotherly love extended to the pastor and family, who have resided in this community for the past nine years, was very cordial and indicated that every one present was sorry that the time had come when they had reached the time of parting. It was very evident on all sides that the severing of social and church work ties was decided upon reluctantly. The members of the church and society accepted Rev. Staff's resignation simply because they thought he and his family needed the change of climate."

"While the evening's program was informal, a short musical program was rendered. The Symphonic Orchestra rendered one of their selections in opening the evening's entertainment. This was followed by a duet by Miss Ruby Nettwick and Mrs. J. H. Wright, which was heartily encored and responded to. Miss Ruby Nettwick and Mr. John Roberts, the church favorites in song, appeared in solos and duets and were very cordially received and encored at each appearance.

"Theodore Brazen had been requested by the ladies of the church to present Rev. Staff and family with a solid silver tea pot as a slight token of the esteem in which they were held. With it he extended the love, good will and esteem of the church society and congregation in their future work in California. Through him the society extended the best of every thing for their future health and prosperity.

"In accepting the gift, in the spirit in which it was presented, Rev. Staff was so affected that he could hardly find words to express his thoughts. He finally recovered and responded in a most appreciative and cordial manner as he is so well fitted to do. Mr. Geo. R. Gardner, in behalf of her Sabbath school class of twelve young ladies presented both Mr. and Mrs. Staff with tokens of the respect and esteem in which they were held by members of the Sabbath school, where they had always been efficient leaders.

"The entire evening was a most enjoyable one and there is no doubt but what Mr. and Mrs. Staff and family were impressed with the lasting good Christian work they had accomplished while residents of Grand Rapids. They also must have realized that in going to new fields of labor they were taking with them the love, respect, confidence and good will of every member of the Congregational Church and Sunday school in which they labored for nine years. This is simply the highest compliment that can be paid them."

—O—
Will Move Into New Home
Mr. and Mrs. John Gebhardt will move at once into the beautiful eight-room bungalow just built for them by Contractor J. M. Weatherford at the corner of Bush and Fifteenth streets, at a cost of \$3000.

—O—
House Party at Beach
Miss Edna Robbins entertained the teachers of Vernon Avenue School, Los Angeles, where Miss Robbins is teaching, with a house party at Laguna Beach from Saturday afternoon to Sunday afternoon. They made the trip by auto stage, greatly enjoying the magnificent approach to Laguna.

One of the features of the stay at the beach was a Yosemite lunch at picturesque Arch Beach. Those with Miss Robbins were Misses Frayster, Hochengen, Lewis, Morrison, Grant and Hoover.

—O—
Dressmaking at 615 Wellington Ave.
Mr. and Mrs. Utley were the honorees at a birthday celebration given at the home of Mrs. M. L. Adams in Tustin yesterday. But the occasion was more than just a birthday party. Mrs. W. H. Adams, daughter of Mr. and Mrs. Utley, entertained with Mrs. M. L. Adams, extending the affair into a celebration that also honored her parents' twenty-fifth wedding anniversary. The triple celebration proved to be a happy occasion long to be remembered.

After dinner the merry party motored to Laguna Beach and on their return, another hospitable feast was enjoyed at the Adams home.

Mr. and Mrs. Utley were wedded twenty-five years ago in Los Angeles. Mr. Utley being then a young business man of Santa Ana, who was at that time a small village of Los Angeles, formerly of Santa Ana was presented with a handsome hand-painted vase, Mrs. Ogden, also of Los Angeles, receiving the second trophy, a cluster of hand-made roses, while Mrs. Elmer Burns of Santa Ana was consoled with the cutest of Kewpiedolls, a prize calculated to cover any amount of disappointment in smiles.

Later in the pleasant dining room of the hotel three round tables were put together cloverleaf fashion for the party and dinner was served on the large table thus formed. A huge brown basket filled with pink sweet peas graced the center of the table and sprigs of shell pink begonias were scattered over the snowy cloth. The nut baskets were the daintiest of pink roses with long green stems, the work of the hostess, and the place cards, which slipped over the rim of the glasses, also bore a floral design in pink. Covers were laid for sixteen. From overhead softly shaded electric lights shed a rosy glow over the prettily arranged table and the merry guests who sat around it.

Those of the guests having their homes in Los Angeles remained for the hotel dance in the evening, while the ones living in this city turned their faces homeward early in the evening, all returning on the same car after a most enjoyable afternoon. Those going from Santa Ana were

EVE IN PARADISE
When Eve held forth in paradise,
She wasn't hard to please;
For when she wanted garments new,
She picked 'em from the trees.
—Los Angeles Express.
When Eve held forth in Paradise,
She thought her gown sedate,
But worn today I'm afraid she'd find
It slightly out-of-date.
—Modesto Herald.
No, Mother Eve in Paradise
SET fashions for today;
With slit and hobble, we are near
To Mother Eve's own way.
—Santa Ana Register.
•••••
Piano Recital
The piano pupils of Miss Virginia Johnston were presented in recital last Saturday afternoon at the Johnston home at 524 East Walnut street. Friends and relatives of the pupils were guests at this pretty musical affair and greatly enjoyed the excellent work of Miss Johnston's pupils who displayed unusual self-possession and much musical skill in the rendition of their numbers. The memory work was especially noticeable as well as intelligent interpretation and excellent technique. Miss Johnston, as well as her pupils, is to be complimented on the success of the recital, which reflected decided credit on pupils and teacher.

The home throughout was adorned with lovely pantries grown on the Johnston grounds, and in this pleasant environment a social hour followed the program. Dainty refreshments were served, over which congratulations were given. The Shell has ever undertaken, and most of the members feel that it is a very commendable object and that it has been an institution of great benefit to the many mothers who have availed themselves of its privileges. It was pointed out at Saturday's meeting that it is not so much a question of whether or not the Shell should continue its responsibility in that direction. The Day Nursery is the only work, outside of its regular cultural work, that the Shell has ever undertaken, and most of the members feel that it is the best method of supporting the nursery, but also as to whether or not the Shell should continue its responsibility in that direction. Dr. and Mrs. Chas. E. Daniels of Los Angeles occupied their cozy cottage here over the week end and had as their guests, Dr. and Mrs. John Thatcher of Los Angeles. Dr. Thatcher is a large stockholder in the Globe Amusement Co.

Chas. E. Warner and family of Los Angeles arrived Friday and have taken a cottage on Fourth street for the month of June.

Miss Margaret Wallace, daughter of Mr. and Mrs. Lew H. Wallace, returned home Saturday from Long Beach.

S. Tustin entertained a party of

Few Blackeyes Have Been

LIMAS PROVING

BIG FAVORITE

Planted at Garden Grove

This Year

GARDEN GROVE, May 31.—This section has planted a greater acreage of lima beans this year than in any year previous. Last season a large crop of blackeye beans were grown by ranchers of this vicinity and there are enough of this product on the market now to supply all demand for this year, hence this variety will not be planted.

The limas are always staple and bring satisfactory returns to the grower. Among those who grow these beans extensively are well-known farmers here. The Cleveland ranch will plant one hundred acres, J. Allen Knapp will have twenty acres, the Andrus place forty acres, Schnittger Bros. thirty acres and Bert Hayes forty acres.

Chili peppers will also be grown in large quantities. The tiny plants are just coming on and in excellent condition, with every indication for a good harvest. Approximately four hundred acres are devoted to this crop for the coming season.

The Forsters of Garden Grove will erect a building with fifty-foot frontage on Euclid avenue. It is to extend back well toward the rear of the lots. The building will be two stories in height, a large hall occupying the second floor, while the lower part will be used for business purposes.

DROPS DEPUTY
ON NOTICE FROM
POSTAL AUTHORITY

Guaranteed Eczema Remedy

A man, including, burning, redness, pain and disagreeable effects of the skin, with eruptions, blisters, pustules and irritation, with eruptions can be readily cured and the skin made clear and smooth with

Mr. J. E. Elmer, the man who had been twenty-five years and had tried everything. All failed. When I found Dr. Hudson's Eczema ointment I found this: "This ointment is the formula of a physician, and has been used for years—not an experiment. That is why we can guarantee it. An ointment, or by mail, Price 50c. Pfeifer Chemical Co., Philadelphia, and 121 Louis. Advertising.

Postmaster J. W. Duckworth on last Wednesday evening dismissed Deputy Postmaster Elmer Inus from his position, following receipt of a letter from the first assistant postmaster general at Washington authorizing him to dismiss him from the service. Inus has been employed at the post office for the past five years. His dismissal comes as a result of false charges filed against the official conduct of Postmaster Duckworth, and which were made the subject of an investigation by a post office inspector who was here two months ago and obtained from the latter an affidavit setting forth his reasons for making the charges against Duckworth. The inspector forwarded his report on to Washington, and the letter from the first assistant postmaster general follows along routine of official procedure.

Postmaster Duckworth said yesterday that the first he knew of any charges being preferred against him by his deputy was when a post office inspector entered the office two months ago. The charges filed against him were shown to him, and were immediately denied. A two days' investigation by the inspector sustained the postmaster. His official administration of the office having been found to be accurate and perfectly proper. No action was taken leading to the dismissal of his deputy by the postmaster until the report of the inspector could be forwarded to Washington. This was done, and on Wednesday last, Mr. Duckworth received a letter from the first assistant postmaster general ordering that Inus be dismissed from the service.

when Policemen Ryan and Murray arrested
Frank Musselman on a charge of
selling lottery tickets. The arrest
was made in a rear room of the Palace
Restaurant, of which Musselman is
part owner at the corner of French
and East Fourth streets. Ninety-five
lottery tickets were found in Musselman's
possession, and the names of
two or three men in the room were
taken as witnesses of sale.

The officers have felt certain for
some time that lottery tickets were
sold by Musselman. They got information
as to the time the tickets generally arrived.
Saturday night about 8 o'clock Ryan and Murray walked in
to the place. Ryan had a search warrant,
and in the search he found lottery tickets for two concerns, one in
San Francisco and one in Mexico. Returns of drawings were also found.

Justice Cox fixed Musselman's bail
at \$100. Musselman put up the
amount, his hearing being set for 2
o'clock this afternoon.

This afternoon Musselman pleaded
guilty to the charge of selling a
lottery ticket to Nelson Wessner, and was fined \$150, which amount he paid. The lottery tickets, which
were in the original R. G. Mexican
Co., with prizes payable at room 216
Chronicle building, San Francisco.

were ordered confiscated by the court.

Musselman stated he would quit
the business, that he had sold the
tickets for the accommodation of
friends.

Wanted Elsewhere

Under Sheriff Law has Pedro Rodriguez
in jail on a charge of contributing
to the delinquency of a minor.
The girl is Maria Zambrano, Rodriguez's
step-daughter. They came here a few
weeks ago from Los Angeles county,
in which county the offense took
place and to which county they are
to be returned by the officers.

Suspends Sentences

Two men caught in a raid on a
gambling joint at Yorba on April 6
were given suspended sentences to-
day. They have served penalties for
gambling. Today Domingo Romero
pleaded guilty to conducting the place,
and was given a sentence of 100 days,
with the sentence suspended during
good behavior. Gregorio Orozco plead-
ed guilty to carrying a revolver. A
sentence of six months was suspend-
ed.

Charge Disturbance

Almer Melford was arrested yester-
day at Garden Grove by Constable
Clark on a charge of disturbing the
peace.

Battery Case

Joseph Ferguson of Newport
Beach has sworn to a complaint
charging Clarence G. Alyes with bat-
tery.

FORTLAND WOMEN
TO VOTE FOR FIRST
SINCE BALLOT WON

PORTLAND, Ore., June 2.—With
women voters holding the balance of
power, Portland today is holding its
first election under commission form
of government. A mayor, four com-
missioners and an auditor are being
elected from a ballot containing the
names of 32 candidates. This is the
first regular election in which women
have participated since they were
granted the franchise last November.

Portland's constitution
is patterned after the Des-
Moines plan.

TO EDUCATE THE FARMER
IN BUYING AND SELLING

WASHINGTON, June 2.—A new
branch of agricultural extension was
formally launched at the Department
of Agriculture today. It is the
"rural organization service," designed
to aid farmers along economic buying
and selling lines. It is particularly
designed to educate the farmer in
better marketing of his products
therefore the department has de-
voted its energies toward educating
the farmer in production of better
crops. Dr. Thomas N. Carver, for-
merly of Harvard University, will be
in charge of the new bureau, which
is expected to save thousands for the
farmers of the United States.

CURRENCY REFORM
FIGHT MAY LEAD
TARIFF INTEREST

WASHINGTON, June 2.—Tariff
legislation may be almost completely
overshadowed by the struggle over
currency legislation before the pres-
ent extra session of congress can
begin. Such a development is not at all
unlikely in view of the disclosure of
the letter written by President Wilson
to Senator Tillman in which the
President strongly urged prompt cur-
rency reform legislation to prevent
business disturbances consequent to
the enactment of a new tariff law.

As the situation stands, it is fully
expected the house will pass a cur-
rency bill. The President may be
able to line up the senate Democratic
leaders for currency legislation to fol-
low tariff.

Dr. A. T. Vance, osteopath, offices
114½ East Fourth St. Sunset 279.

WASHINGON, June 2.—Most
children have worms

Many mothers think their children are
suffering from indigestion, headache, nose-
bleeding, etc., when the trouble is
simply worms. The worm is
the commonest worm in children, who
not only their teeth, but bad breath
and body, value health as the sym-
bol of having worms, any worm should be given
the worm. Worms are present in all kinds of
household articles, including the clothes, linens, the system, and
the children with whom we come. Klempers
Worm Killer is guaranteed to kill worms
in Indian Medicine Co., Philadelphia, and
St. Louis, advertisement.

FATIGUE A FOE TO BEAUTY

Woman Who Would Retain Charm
Should Avoid Allowing Herself
to Be Victim of Overwork

Overfatigue is a foe to beauty.
Even if there were no lasting effects
from it, which there are, a wearied
look in a woman's face adds nothing
to her charm. Rather, it is as the ap-
pearance of a faded flower compared
with that of a fresh one. The muscles
and muscular tissues become gradually
weak and show themselves with
particular perversity in ugly rings
and bags about the eyes, in a length-
ening of the lines between the nose
and the mouth, and a general sagging.

Fatigue, too, has a direct effect upon
the stomach muscles, causing them
to sag also, and become unable to
work properly, and this, in turn, re-
acts upon the complexion, rendering
it sallow and eventually blotched. So,
I say, avoid fatigue.

Rest whenever you can. Whatever
the routine of your day may be, it is
possible for you to snatch a moment,
or at least a second or two, here and
there, of complete relaxation. Take
a long breath and relax, then go on
at tension if necessary, but it is rarely,
very rarely, necessary, and there
is a point to be made much of. Re-
sist tension.
